

Strategic Roadmap

"Tell me the facts and I'll learn...But tell me a story and it will live in my heart forever." -Native American Proverb

The Issues

Inadequate investments in our nation's children and families

Costly policies that prioritize punishment over prevention

Lack of collective action to make meaningful systemic change... despite decades of compelling data-driven arguments

Our Foundational Beliefs

Narratives are the main driver of policy change

A multisector approaches is needed to address root causes of inequities

Those closest to the problems are closest to solutions

Our Approach

To Achieve

Systemic Transformation

- Policy Informed by affected communities
- Public awareness of impacts of trauma and adverse childhood Experiences (ACEs)
- Expanded investments in early interventions addressing root causes

Individual Transformation

- Healing and destigmatization of childhood trauma
- Discovering the power of one's story and voice
- Breaking the cycle through building awareness and advocacy

Our Vision

A society that prioritizes upstream prevention and support for vulnerable children, empowering all youth to reach their full potential.
